Formaldehyde (adults) [mg/kg]	DIN EN ISO 14184-1 (1999-02) (similar to Japanese Law 112)			22

The result relates only to the tested item. Samples are not stored longer than 3 months. The report shall not be reproduced except full without the written approval of the testing laboratory. Parameters which are not covered by the lab's testing scope are subcontracted to laboratories with government approval. The accreditation relates to competences given in the accreditation certificate.

The analyses of mixed swatches is carried out at customer's special request and may imply a modification of the test standard. Please note that for results of mixed swatches below a given limit any single sample may exceed this limit. According to test specification separate testing is recommended in these cases.
